

The Army SHARP Academy, in coordination with the Combined Armed Center (CAC), has been hosting quarterly Professional Forums since early 2015, enabling Subject Matter Experts (SME) from the civilian and military SHARP communities to speak on topics or initiatives trending within the profession, benefiting the participant with information, widening the dialogue on Sexual Assault, and creating an environment to Drive Change.

Our forums participants (in-person and virtual) include military leaders, university and college partners, representatives from law enforcement and medical communities, local advocacy groups, Sexual Assault Response Coordinators (SARCs), and Victim Advocates (VAs).

The Forums also assist our DoD Civilian/Military SHARP professionals maintain their credentialing requirements by providing Continuing Educations Units (CEUs) for participation in the forum through the National Organization for Victims Assistance (NOVA).

If you wish to be added to the SHARP Professional Forum email list, or you are interested in becoming a guest speaker for one of our quarterly forums, please contact Jim Marble at james.w.marble.civ@army.mil.
